AUTOMATION AND REMOTE CONTROL

Volume 53, Numbers 1-12, 1992

(A translation of *Avtomatika i Telemekhanika*)

Engl./Russ.

Volume 53, Number 1, Part 1, January, 1992

SURVEYS

Optimal Control of Systems Described by Ordinary Differential Equations with Nonlinear Characteristics of Hysteresis Type - M. Brokate 1 3

DETERMINISTIC SYSTEMS

Roughness of Linear Dynamical Systems. II - M. É. Braverman and L. I. Rozonoér 34 41

Optimal Feedback for a Discrete System with Perturbation Compensation. I. Design of an Optimal Estimator - R. Gabasov, P. V. Gaishun, F. M. Kirillova, and S. V. Prishchepova 44 52

STOCHASTIC SYSTEMS

Optimal Estimation of the Time of Change in the Characteristics of a Markov Chain - A. A. Mal'tsev and A. M. Silaev 52 63

Problem of Practical Implementation for Methods of Identification of Linear Dynamic Objects from Data on Their Operation in Closed-Loop Control Systems - I. I. Perel'man 59 72

Analysis of Problems of Probabilistically Optimal Control of Linear Systems with Discrete Time - A. N. Sirotin 70 86

Volume 53, Number 1, Part 2, January, 1992

STOCHASTIC SYSTEMS

Active Identification of Nonlinear Dynamic Objects of Hammerstein Type - B. K. Chostkovskii and A. A. Yudashkin 79 96

Probability Characteristics of Bounded Quasi-Poisson Processes of Inventory Control Systems - A. S. Shalamov 85 103

Accuracy Requirements for Quality Characteristics of Mixture Components Using the Entropy Criterion - M. I. Shpunt 93 113

DISCRETE SYSTEMS

Block Approach to Problems in the Theory of Sequential Machines - N. Kh. Aslanova and R. G. Faradzhev 100 123

CONTROL IN BIOLOGICAL SYSTEMS AND MEDICINE

Model-Based Control Algorithm for Medication Dosing under Incomplete Information about the State of the Organism - A. B. Zatyuryukin, S. A. Kalinin, and E. L. Orkina 108 132

TECHNICAL DIAGNOSTICS

Diagnosis of Discrete Dynamic Systems on the Basis of Recorded Finite Fragments of Their Behavior - V. V. Gerasimov and E. K. Kornoushenko 113 138

Calculation of Signatures of Regular Periodic Sequences - V. N. Yarmolik 119 146

	Engl.	Russ.
RELIABILITY		
Calculation of the Stationary Reliability Characteristics of a Four-Unit Hierarchical System with Recovery - A. I. Kovalenko and N. Z. Strygina	127	156
DISCUSSIONS		
Discussions on Robustness Problems in Control Systems	134	165
NOTES		
Structural Method for Formulating the Equations of State of a Multidimensional System - A. A. Baranov	144	177
Dynamic Systems Diagnosis Based on Kalman-Filter Updating Sequences - Ch. M. Gadzhiev	147	180
Diagnosability of Linear Dynamic Systems - A. S. Kulik	151	184

Volume 53, Number 2, Part 1, February, 1992

	Engl.	Russ.
SURVEYS		
Comparative Analysis of Voting Procedures: A Review and New Problems - V. I. Vol'skii and Z. M. Lezina	155	3
DETERMINISTIC SYSTEMS		
Stability of Quasiharmonic Systems of Discrete Equations - M. G. Blizorukov and S. N. Shimanov	173	30
Identification of Systems with Distributed Parameters - A. S. Grinberg, V. A. Lototskii, and B. Sh. Shklyar	178	36
Absolute Stability of Nonlinear Nonstationary Control Systems with Periodic Linear Sections - A. P. Molchanov and M. V. Morozov	189	49
Chebyshev Approximation in Problems of Parametric Optimization of Control Processes. I. Necessary Optimality Conditions and Computational Algorithms - É. Ya. Rapoport	198	60
STOCHASTIC SYSTEMS		
Characteristics of a Procedure for the Detection of Sudden Change in an Autoregression Process with an Unknown Noise Distribution - S. É. Vorobeichikov and V. V. Konev	206	68
Estimation by means of a Filter with Random Noise - E. A. Lyashenko and L. B. Ryashko	213	75
System Informativeness Parameters for the Construction of Effective Combinations of Input Variables for Identification of Multidimensional Plants - M. I. Shpunt	220	83
ADAPTIVE SYSTEMS		
Locally Optimal Pseudodual Control of Systems with Unknown Parameters - E. V. Bodyanskii and M. D. Boryachok	225	90
Procedure of Stochastic Approximation with Disturbances at the Input - O. N. Granichin	232	97

Volume 53, Number 2, Part 2, February, 1992

	Engl.	Russ.
EVOLVING SYSTEMS		
Minimization of Costs Associated with Variable Due Times in One-Machine Scheduling Theory - V. S. Gordon	239	105
Automated System of Expert Estimation - B. G. Litvak	245	112

	Engl./Russ.	
AUTOMATA		
Arithmetic Representation of Functions in Multivalued Logic and a Parallel Algorithm for Finding Such Representations - N. Kh. Aslanova and R. G. Faradzhev	251	120
TECHNICAL DIAGNOSTICS		
Testable Circuit Design for Ring Testing - R. Kh. Latypov	262	132
Functional Fault Models for Analog Circuit Elements - Yu. B. Malyshenko	265	136
Analysis of the Fault Tolerance of Complex Systems by Extensions of Petri Nets - V. Yu. Fedorov and V. O. Chukanov	271	144
A Method for Estimating Resources Required for Implementation of Finite Algorithms - A. A. Barannik	281	157
Effectiveness of Utilizing the Resources of Parallel Computing Systems for the Allocation of Data Files in Computer Memory - A. A. Barannik	289	167
Fault-Tolerant Agreement about Information with Fault Identification in a Four-Machine Computing System - A. V. Lobanov	293	171
RELIABILITY		
Incomplete Data Estimation of a Reliable System with Multiple Failures - Yu. K. Belyaev, T. N. Dugina, and N. V. Chistyakova	299	181
NOTES		
One Solution of the Speed-of-Response Problem - F. M. Babushkin, V. B. Kovalevskii, and O. Yu. Sedyako	306	190
On-Line Generation and Storage of Diagnostic Information in Discrete Automatic Devices - I. D. Kalchev	309	194
Self-Checking Error Indicator for Antiphase Signals - V. V. Sapozhnikov and Vl. V. Sapozhnikov	312	197
A Failure Detection Device of Small Dimensions - Yu. L. Sayapin	315	200
LETTERS TO THE EDITOR		
Correction - Ya. M. Bershchanskii and M. V. Meerov	319	205

Volume 53, Number 3, Part 1, March, 1992

SURVEYS		
Self-Checking Checkers for Balanced Codes - V. V. Sapozhnikov and Vl. V. Sapozhnikov	321	3
DETERMINISTIC SYSTEMS		
Guaranteed Estimation of Linear Dynamic Systems Based on Discrete-Continuous Observations - M. V. Basin and Yu. V. Orlov	349	36
Robust Control in the Presence of Nonstationary Perturbations - I. A. Knyazev	357	45
Conditions for the Optimality in Problems of Generalized Control. I. Necessary Conditions for Optimality - B. M. Miller	362	50
Chebyshev Approximation in Problems of Parametric Optimization of Control Processes. II. Alternance Properties of Control Processes - É. Ya. Rapoport	370	59
STOCHASTIC SYSTEMS		
Estimation of Unknown Parameters of an Almost Periodic Signal from Controlled Bilinear Observations - P. S. Knopov and V. A. Yatsenko	376	65
Optimal Kernel Estimation of Densities of Distributions of Multidimensional Random Fields and Processes - Yu. I. Palagin	384	73

	Engl.	Russ.
Calculating the Conflict Coefficient for Two-Machine Processing in the Stochastic Case - M. G. Rozinas	392	82

Volume 53, Number 3, Part 2, March, 1992

DISCRETE SYSTEMS

Local Stability of Pulse Systems and the Stability of Zero Solutions of Quasilinear Discrete Equations in Convolutions - M. M. Kipnis	401	92
Averaged Transient Processes in Digital Control Systems with Asynchronous Processing - V. V. Kruglov	409	101

ADAPTIVE SYSTEMS

Estimating the Order of Linear Objects from Experimental Information - R. N. Bakhtizin and A. R. Latypov	416	108
Synthesis of Adaptive Systems for Stabilizing Nonlinear Dynamic Objects Using Integral Transforms - V. Yu. Tertychnyi	420	112

EVOLVING SYSTEMS

A Model of Cold War and Optimal Response - V. R. Blok, B. I. Kalyuzhnyi, and S. N. Panasov	430	124
Stochastic Stimuli and Equilibria in a Model of Intervening Opportunities - Yu. A. Dubov	442	136

TECHNICAL DIAGNOSTICS

High-Reliability RAMs. I - A. S. Bernshtein, Yu. L. Tomfel'd, and I. V. Shagaev	449	145

COMPUTING TECHNIQUES IN AUTOMATIC CONTROL

Analysis of Throughput for Buffered Multiport Memory - Yu. M. Sokol	455	153

NOTES

Differentiation of a Signal with Bounded Variances of Derivatives in the Presence of Noise - A. V. Nebylov and Yu. V. Trofimov	464	164

Volume 53, Number 4, Part 1, April, 1992

SURVEYS

Western Standards for the Software Life Cycle Process - V. V. Lipaev	469	3

DETERMINISTIC SYSTEMS

Extremal Estimates of the Coefficients of a Characteristic Polynomial of Arbitrary Order with Real and Complex Roots - I. V. Breido	486	19
Synthesis of Robust Stabilizers with Real Coefficients by the Methods of Nevanlinna and Pick - Yu. A. Vasilevskii, A. S. Poznyak, and A. V. Semenov	490	23
Optimal Feedback for a Disturbance-Compensated Discrete-Time System. II. Optimal Controller Synthesis - R. Gabasov, P. V. Gaishun, F. M. Kirillova, and S. V. Prishchepova	500	33
Optimality Conditions in Generalized Control Problems. II. Sufficient Conditions of Optimality - B. M. Miller	505	39
Chebyshev Approximations in Parametric Optimization Problems for Controlled Processes. III. Optimal Control Problems - É. Ya. Rapoport	514	49

Engl./Russ.

STOCHASTIC SYSTEMS
Minimax Estimation in Uncertain-Software Linear Differential Systems - A. V. Borisov, A. R. Pankov, and N. M. Sotskii 521 57
Extrapolation of Stochastic Processes with Continuous-Discrete Observation Channels with Memory - N. S. Demin 527 64
Convergence from Below of the Modified Robbins-Monro Procedure - T. P. Krasulina 535 73
Application of the Functional Transform Method for Identification of Nonlinear Systems - F. F. Pashchenko and K. R. Chernyshev 539 77

Volume 53, Number 4, Part 2, April, 1992

DISCRETE SYSTEMS
Application of Discrete Convolution Equations for Checking Stability of Periodic Processes in Pulse-Width Systems - M. M. Kipnis 547 86
Frequency-Domain Stability Criterion for Nonlinear Pulse Systems with Even Pulse Generation - A. N. Churilov 554 93

ADAPTIVE SYSTEMS
Optimality of Locally Optimal Solutions of Linear-Quadratic Control and Filtering Problems - M. M. Kogan and Yu. I. Neimark 561 101
Information Inequalities in Adaptive Control of a Multidimensional Linear Plant - A. V. Nazin 570 111

MODELING OF BEHAVIOR AND INTELLIGENCE
Optimal Quantization of Univariate Distributions with Convex Losses - V. N. Ol'man 578 119
Equilibrium and Stability Conditions of a Multiparty Political System - I. Petersen 587 129

COMPUTING TECHNIQUES IN AUTOMATIC CONTROL
Reaching Agreement about Information with Fault Identification in Distributed Computer Systems - A. V. Lobanov 594 137
Searching and Sorting: Classification, Transformation, and Synthesis. I - G. E. Tseitlin 600 147

RELIABILITY
Low-Density Array Correcting Module and Burst Errors - V. K. Konopel'ko 607 155

NOTES
Synthesis of H_∞-Optimal Discrete Servo Systems - L. N. Volgin 614 164

Volume 53, Number 5, Part 1, May, 1992

DETERMINISTIC SYSTEMS
Algorithms for Control with a Minimal Number of Switchings - N. A. Bobylev, Yu. M. Burman, and A. B. Shubin 619 3
An Evasion Problem in Space - V. S. Zheleznov, M. N. Ivanov, E. P. Maslov, and É. A. Kurskii 627 11
A Certain Simple Pursuit Problem with Phase Constraints - N. N. Petrov 639 22

	Engl./Russ.	
Preservation of the Property of Global Stability with respect to Shifts under Variation of Parameters - V. L. Kharitonov	642	26
Stability of Some Nonlinear Extremal Problems in a Pulse Environment - A. G. Chentsov	646	30
STOCHASTIC SYSTEMS		
A Model and Methods of Uniformly Optimal Stochastic Control - V. V. Baranov	656	42
Statistical Synthesis and Analysis of Simultaneous Detection and Estimation Systems in Discrete Orthogonal Bases - Yu. G. Bulychev and S. A. Pogonyshev	666	52
Rate of Convergence in L_2 of the Projection Estimator of the Distribution Density - V. N. Vapnik, N. M. Markovich, and A. R. Stefanyuk	677	64
Linear-Quadratic Problem of Stochastic Control. II. The Separation Problem - Yu. F. Kazarinov and V. N. Fomin	687	74
ADAPTIVE SYSTEMS		
Estimation in Adaptive Optimal Control Systems - M. V. Arkhipov and V. N. Bukov	695	82
Volume 53, Number 5, Part 2, May, 1992		
EVOLVING SYSTEMS		
Cost-Efficient Taxation Mechanisms - V. N. Burkov and V. I. Khokhlov	703	89
Parallel Algorithms for Solution of Problems in Scheduling Theory - V. S. Gordon	710	97
Exact Penalty Functions in Linear and Integer Linear Programming - V. V. Shmelev	718	106
AUTOMATA		
Modelling Digital Circuits with Allowance for Dependence of Indefinite Signals - V. A. Ermilov	726	116
TECHNICAL DIAGNOSTICS		
A Method for Localization of Byzantine and Nonbyzantine Faults - É. M. Mamedli, R. Ya. Samedov, and N. A. Sobolev	734	126
Some Features of a Signature Analyzer over an Extended Finite Field - Yu. L. Sagalovich	745	138
COMPUTING TECHNIQUES IN AUTOMATIC CONTROL		
Dynamic Programming in the Design of Real-Time Multiprocessor Systems - A. V. Pozharskii	752	147
Searching and Sorting: Classification, Transformation, and Synthesis. II - G. E. Tseitlin	760	156
RELIABILITY		
Systems with Checking and Minimal/Complete Repair - I. M. Titenko	767	166
NOTES		
Minimum Error of "Two-Moment" Methods for Calculation of Queueing Networks - S. M. Porotskii	776	176
Viktor Sergeevich Kulebakin: Hundredth Anniversary - S. I. Bernshtein	779	184
Volume 53, Number 6, Part 1, June, 1992		
DETERMINISTIC SYSTEMS		
Error Bounds for the Harmonic Balance Method - N. A. Bobylev, Yu. M. Burman, and S. K. Korovin	785	3

	Engl.	Russ.
Differential Pursuit Game with Mixed Control Constraints - N. D. Botkin	793	12
Transients in Adaptive Control of a Deterministic Autoregression Process - A. A. Vladimirov and R. N. Izmailov	800	20
A Class of Three-Person Coalitionless Differential Games - A. N. Dzhafarov	804	24
Evasion of a Rotating Detection Zone - M. N. Ivanov and E. P. Maslov	809	30
Piecewise-Constant Stabilization of Systems Linear in Control - S. V. Lapin	816	37
STOCHASTIC SYSTEMS		
Optimal Smoothing in Systems with Random Jump Structure - V. A. Bukhalev	823	46
Parametric Synthesis of First-Order Stationary Polynomial Filters - B. D. Zotikov and A. A. Neifel'd	832	56
Asymptotic Optimality in Probability and Almost Surely for Controls in the Linear Regulator Problem - T. A. Konyukhova and V. I. Rotar'	839	65
Software for the Design of Conditionally Optimal Filters and Analysis of Processes in Discrete-Time Stochastic Systems - É. R. Korepanov, V. S. Pugachev, I. N. Sinitsyn, A. P. Khatuntsev, V. I. Shin, and V. I. Sinitsyn	851	78
QUEUEING SYSTEMS		
Optimization of an Integrated Service Digital Network with a Finite Number of Users and Blocking - A. Z. Melikov and L. A. Ponomarenko	858	86

Volume 53, Number 6, Part 2, June, 1992

	Engl.	Russ.
DISCRETE SYSTEMS		
Local Stability of Periodic Solutions in Sampled-Data Control Systems - V. S. Baushev, Zh. T. Zhusubaliev, Yu. V. Kolokolov, and I. V. Terekhin	865	93
Application of Parametric Transfer Functions for Synthesis of Discrete-Time Control Laws. I. Optimal Discrete Filtering of Continuous Dynamic Processes by the Average Variance Criterion - E. N. Rozenvasser	872	101
ADAPTIVE SYSTEMS		
Adaptive Control of a Stochastic System with Unobservable State under Conditions of Unidentifiability - M. M. Kogan and Yu. I. Neimark	884	114
Adaptation Algorithms in Searchless Self-Tuning Systems with Frequency Characteristic Control that Do Not Use Test Signals - M. A. Shnaidman	892	122
EVOLVING SYSTEMS		
Allowing for Constraints on Growth of Intra-Field Surface Systems under Optimal Control of Oil Field Development - O. A. Babich and O. Yu. Pershin	901	132
Exact Algorithm to Solve the Multidimensional Resource Allocation Problem - M. B. Gendler and L. S. Zaretskii	906	138
CONTROL IN BIOLOGICAL SYSTEMS AND MEDICINE		
Optimal Damping of Population Size Fluctuations in an Isolated "Predator–Prey" Ecological System - G. E. Kolosov and M. M. Sharov	912	146
MODELING OF BEHAVIOR AND INTELLIGENCE		
Model for the Representation of Membership Functions in Expert Systems - V. D. Baronets and M. A. Grechikhin	921	156
TECHNICAL DIAGNOSTICS		
Fault Identification in Dynamic Systems - A. N. Akimov	926	161

	Engl.	Russ.
Exhaustive Testing and Signature Analysis - E. L. Stolov	931	167
COMPUTING TECHNIQUES IN AUTOMATIC CONTROL		
Determining the Maximum Performance of Dataflow Computers - O. M. Brekhov and V. A. Moraru	936	173
Structural Methods for Increasing the Functional Capabilities of Array-Switch Interconnections in Multiprocessor Systems - A. G. Nakalyuzhnyi, V. P. Tarasenko, and E. M. Shvets	944	182

Volume 53, Number 7, Part 1, July, 1992

DETERMINISTIC SYSTEMS		
A Method of Analysis of Periodic Solutions in Nonlinear Dynamic Systems - V. P. Zhukov	951	3
Robust Stability and D-Partition - Yu. I. Neimark	957	10
Parameter Identification of the Modal and Physical Model of a Flexible Space Vehicle - Yu. I. Nekhoroshii, V. Yu. Rutkovskii, and V. M. Sukhanov	966	19
Robust Nyquist Test - B. T. Polyak and Ya. Z. Tsypkin	972	25
Parametric Optimization of Nonlinear Dynamic Systems - M. V. Trigub	978	32
STOCHASTIC SYSTEMS		
Asymptotic Normality and Rate of Convergence Bounds of Identification Algorithms for Nonstationary Systems - M. V. Bondarenko and A. S. Poznyak	989	44
Linear Filtering of Stationary Discrete-Time Processes - G. A. Golubev and O. V. Pisarev	1000	55
Control of a Linear Scalar Fuzzy System - S. A. Zabelin and A. I. Kibzun	1006	62
Estimating the Characteristics of Systems and Random Disturbances by the Minimum Distance Method - N. A. Kisenkova	1013	70
Trajectory-Spatial Filtering in Maximum Correlation Systems - P. M. Yukhno	1021	79
QUEUEING SYSTEMS		
Queueing Systems in a Semi-Markovian Random Environment - I. A. Korotaev and L. R. Spivak	1028	86
An Invariant-Discipline Queueing System - A. G. Tatashev	1034	92

Volume 53, Number 7, Part 2, July, 1992

DISCRETE SYSTEMS		
Discrete Optimization under Interval Uncertainty - V. I. Levin	1039	97
Application of Parametric Transfer Functions for Synthesis of Discrete-Time Control Laws. II. Control Synthesis for Closed-Loop Continuous-Digital Systems - E. N. Rozenvasser	1047	107
ADAPTIVE SYSTEMS		
A Recursive Algorithm for Estimation of Autoregression Parameters - A. B. Yuditskii	1058	118
EVOLVING SYSTEMS		
A Theorem on Representativeness of Aggregated Models of the Economy - Yu. N. Ivanov	1068	128

	Engl.	Russ.
Qualitative Analysis of Nonlinear Migration Models - V. I. Shvetsov	1075	137
AUTOMATA		
Existence Conditions for Limit Distributions of Markings in Timed Stochastic Petri Nets - N. N. Ivanov	1085	149
COMPUTING TECHNIQUES IN AUTOMATIC CONTROL		
Multicriterion LAN Control Using a Variable Access Protocol to the Data Transmission Environment - V. I. Borzenko, V. S. Kosykh, É. A. Trakhtengerts, and V. M. Shershakov	1091	156
Evaluation of Different Structures of Dataflow Computers - O. M. Brekhov and V. A. Moraru	1098	165
NOTES		
Optimal Robust Control Synthesis for Linear Systems in the Presence of Bounded Disturbances - V. M. Kuntsevich	1110	178
Repair with Dependent Cycles - M. S. Finkel'shtein	1115	183

Volume 53, Number 8, Part 1, August, 1992

DETERMINISTIC SYSTEMS		
Lyapunov Stability of Discrete Event Systems - K. M. Passino, A. N. Michel, and P. J. Antsaklis	1121	3
Method for Compensating for Dynamic Errors in Inertial Systems - V. N. Afanas'ev and K. A. Neusypin	1141	19
Estimating the Response of Tracking Systems to Indeterminacy of Tracked Process Characteristics - S. V. Butsev	1147	25
Design of Robust Aircraft Stabilization Laws - S. N. Diligenskii and A. Yu. Efremov	1153	31
Solution of the Terminal Problem of Aircraft Motion Using the Methods of Analytical Mechanics - S. A. Kabanov and A. S. Shalygin	1160	39
Equivalence of Two Definitions for Absolute Stability of Nonlinear Nonstationary Control Systems with Periodic Linear Components - M. V. Morozov	1167	46
Impulse Extension in the Problem of the Optimization of the Energy Functional - A. N. Sesekin	1174	53
STOCHASTIC SYSTEMS		
Filtering of Random Itô–Volterra Processes on the Basis of Discrete–Continuous Observations - M. V. Basin	1183	63
Asymptotically Optimal Linear Filtering with High-Frequency Uncertainty in the Process Dynamics - A. M. Kerbelev	1193	74
Justification of Two Heuristic Methods in the Problem of Expedient Behavior in a Stationary Medium - A. V. Kolnogorov	1202	83
Multistage Filtering Algorithm for Processes in Nonlinear Discrete Stochastic Systems - M. L. Prikhod'ko	1205	86
Moments of the Distribution of Level-Quantized Processes with Roundoff Using Corrective Signals - V. E. Farber	1210	91

Volume 53, Number 8, Part 2, August, 1992

ADAPTIVE SYSTEMS		
Identification of System Parameters from Information on Normal Operation - N. A. Balonin and O. S. Popov	1217	98

	Engl.	Russ.
Asymptotic Normality and the Rate of Convergence of Recursive Stochastic Processes with a Nonlinear Residual Transformation - A. S. Poznyak and S. N. Tikhonov	1222	103
Direct Control Adaptation with Control Channel Decoupling - A. Yu. Romanov	1231	111
MODELING OF BEHAVIOR AND INTELLIGENCE		
Construction of Decision Rules in Pattern Recognition Problems Utilizing Expert Information - I. V. Gaponenko and I. B. Muchnik	1237	118
Modeling the Behavior of a Human Operator in the Tracking of a Stochastic Trajectory by a Dynamic Controlled System - I. V. Kurochkin and A. A. Mal'tsev	1244	126
AUTOMATA		
Duality of Stable Petri Nets and Marked Graphs - V. V. Tropashko	1251	134
TECHNICAL DIAGNOSTICS		
A General Model and Generation of Tests for Interregister Transfer Control Mechanisms in Microprocessors - B. É. Borisovets and S. G. Sharshunov	1257	142
Design of Self-Testing and Self-Checking Combinational Circuits with Weakly Independent Outputs - M. Goessel and E. S. Sogomonyan	1264	150
Synthesis of Functional Diagnostic Devices for Discrete Nonlinear Dynamic Systems - A. M. Zhukov	1273	160
Ring-Testable Programmable Logic Arrays - R. Kh. Latypov	1282	170
COMPUTING TECHNIQUES IN AUTOMATIC CONTROL		
Investigation of the Characteristics of an Algorithm for Configuring a Hard Real-Time Local Area Network - D. S. Gershuny and I. S. Kasrashvili	1286	175
NOTES		
Positive Periodic Oscillations in Control Systems - A. M. Dement'eva, A. V. Lusnikov, and Zh. Tronel'	1297	187

Volume 53, Number 9, Part 1, September, 1992

	Engl.	Russ.
SURVEYS		
Optimization by Frequency-Uniform Criteria (H-Theory) - A. E. Barabanov and A. A. Pervozvanskii	1301	3
DETERMINISTIC SYSTEMS		
Algorithm for the Construction of the Impulse Characteristics of a Link - E. A. Asarin, N. I. Grachev, and F. F. Pashchenko	1328	33
Control Systems and Generalized Hamilton-Jacobi-Bellman Equations - A. V. Bogatyrev	1335	40
Theory of Invariant Variational Problems in Optimization of Controlled Dynamic Systems - K. G. Garaev	1344	49
Some Control Problems for Nonlinear Systems - A. L. Lebedev	1352	57
Sharp Estimate of the Oscillation Index of a Class of Multiconnected Linear Systems - A. G. Levin	1360	65
Hankel Operator and Hankel Functions of Linear Systems - L. A. Mironovskii	1368	73
Certain Modification of Theorems of the Second Lyapunov Method for Discrete Equations - A. M. Rodionov	1381	86
Sensitivity of Continuous Linear Models - A. I. Ruban	1387	93

Volume 53, Number 9, Part 2, September, 1992

STOCHASTIC SYSTEMS
Robust Recursive Estimation of Processes in Stochastic Systems - A. V. Bosov and A. R. Pankov 1395 102
Regression Parameter Estimation as a Multicriterion Problem - A. S. Korkhin 1403 110
Selecting-Averaging Method for the Solution of Multimodal Problems - A. A. Krasovskii 1410 117
Actions of Stochastic Processes on Systems with Multiplicative Nonlinearities - V. V. Mlechin and B. V. Nikol'skii 1420 128

QUEUEING SYSTEMS
Output Streams in a Modified Jackson Net - Yu. V. Malinkovskii 1426 134

ADAPTIVE SYSTEMS
Synthesis of Robust Optimal Systems for Control of Objects under Conditions of Bounded Uncertainty - Ya. Z. Tsypkin 1431 139

AUTOMATA
Complexity of Identification of Cellular Automata - A. I. Adamatskii 1449 160

COMPUTER-AIDED DESIGN AND PROGRAMMING
Symbolic-Production Systems as a Tool for Formal Description of Information Processes. I - S. V. Nazarov and I. A. Sheremet 1459 172

RELIABILITY
Calculating the Operational Availability Factor of Network Systems - V. A. Netes and B. P. Filin 1465 179

NOTES
Stabilization of Parametrically Disturbed Automatic Control Systems - A. M. Meilakhs 1472 187

Volume 53, Number 10, Part 1, October, 1992

SURVEYS
Parallelism of Integration Methods for Partial Differential Equations - A. P. Karpenko and Yu. M. Shuraits 1475 3

DETERMINISTIC SYSTEMS
Generalized Hamilton-Jacobi-Bellman Equations in Optimal Control Problems with Phase Constraints. I - A. V. Bogatyrev and E. S. Pyatnitskii 1490 21
Decentralized Adaptive Control with a Reference Model - V. A. Brusin and E. Ya. Ugrinovskaya 1497 29
Lyapunov Functions for Nonlinear Nonstationary Discrete Control Systems with a Periodic Linear Part - A. P. Molchanov and M. V. Morozov 1505 37
Analysis of Observability for Polynomial and Analytic Systems and Its Application - K. E. Starkov 1514 46
Use of Models with Aftereffect in the Problem of the Design of Optimal Digital Control Systems - É. M. Fridman 1523 55
Algebraic-Topological Criteria for Stability of Linear Automatic Control Systems - Y. Zhijian 1529 61

Engl./Russ.

STOCHASTIC SYSTEMS
Parameter Estimation under Random and Bounded Noises - A. V. Gol'denshlyuger and A. V. Nazin 1536 68
Influence of Errors of Measurements on the Precision of Linear Extrapolation of Realizations of a Stochastic Process - G. I. Dyatlov, V. D. Kudritskii, and S. A. Safronov 1543 75
Recurrent Estimates of ARX Models with Noise Described by ARMA Processes - V. A. Kaz'min and A. S. Poznyak 1549 80

Volume 53, Number 10, Part 2, October, 1992

QUEUEING SYSTEMS
Extension of the Method of Counting Delays in the Computation of Queueing Networks with Simultaneous Possession of Resources - V. I. Druzhinin and S. M. Porotskiy 1557 89
Transportation Queueing System. Phase Type Distributions. The Principle of Relative Priority Servicing - A. A. Fedosov 1564 96

ADAPTIVE SYSTEMS
Direct Adpative Control with Tunable Reference - V. P. Artyushok and I. G. Solov'ev 1571 105

EVOLVING SYSTEMS
Optimal Mechanisms for Planning and Stimulation in Active Systems - V. N. Burkov, A. K. Enaleev, and Yu. G. Lavrov 1579 113
Guaranteeing Agreements and Operating Compensation for Slippage in Supply of Raw Materials. I. Formalization of the Problem - V. V. Tokarev 1586 120

MODELING OF BEHAVIOR AND INTELLIGENCE
An Approximate Clustering Technique Based on the k-Nearest Neighbors Method - A. P. Kovalenko 1592 127

TECHNICAL DIAGNOSTICS
Self-Checking Comparator - M. Goessel and E. S. Sogomonyan 1599 135
Elements of the Diagnostic Theory of Tolerance and Similarity - P. A. Pravil'shchikov 1605 141
Test Generation for Processing Control - V. P. Chipulis 1623 160
Parametric Error Diagnosis in Dynamical Systems by the Hypothesis Testing Method - A. E. Shumskii 1631 171

COMPUTER-AIDED DESIGN AND PROGRAMMING
Symbolic-Production Systems as a Tool for Formal Description of Information Processing. II - S. V. Nazarov and I. A. Sheremet 1637 178

NOTES
Estimation of Parameters which Occur Linearly in Differential Equations - R. G. Gleizer and B. S. Darkhovskii 1642 184

OBITUARY
Mark Aronovich Aizerman (June 7, 1913 - May 8, 1992) 1646 188

Volume 53, Number 11, Part 1, November, 1992

SURVEYS

Theory of Fuzzy Sets in Control Problems and Principles of Fuzzy-Processor Devices: A Survey of Foreign Literature - V. B. Kuz'min and S. I. Travkin 1649 3

DETERMINISTIC SYSTEMS

Suboptimal Control: Steepest Descent with Respect to the Lagrangian - V. N. Afanas'ev and E. A. Tsomaeva 1679 37

Generalized Hamilton-Jacobi-Bellman Equations in Optimal Control Problems with Phase Constraints. II - A. V. Bogatyrev and E. S. Pyatnitskii 1688 46

Stability of Predator-Prey System - A. D. Drozdov, V. B. Kolmanovskii, and D. Trigiante 1697 57

Dynamics of Controlled Systems Described by Parabolic Equations with Hysteresis Nonlinearities - M. A. Krasnosel'skii, A. V. Pokrovskii, V. V. Chernorutskii, and J. Tronell 1705 65

Modal Estimates of Process Quality in Linear Multidimensional Systems with External Finite-Dimensional Excitation - A. V. Ushakov 1712 72

QUEUEING SYSTEMS

Analysis of a Queue Characterized by a Phase-Type Distribution and a Last Come, First Served Discipline with Interrupts (Preemptive Resume) - P. P. Bocharov and O. I. Pavlova 1722 83

Volume 53, Number 11, Part 2, November, 1992

ADAPTIVE SYSTEMS

Adpative Filtering in the Presence of Perturbations and Measurement Noise of Unknown Intensity - A. E. Barabanov, Yu. A. Lukomskii, and A. N. Miroshnikov 1731 93

Nonhunting Adaptive Control System with Reference Model and Derivative Measurement - E. P. Reshetnyak 1739 101

EVOLVING SYSTEMS

Combining Forecasts with Expert Information - V. B. Golovchenko and S. I. Noskov 1746 109

Guaranteeing Agreements and Operating Compensation for Slippage in Supply of Raw Materials. II. Active Compensation and the Worst Perturbations - V. V. Tokarev 1754 117

TECHNICAL DIAGNOSTICS

Stochastic Methods in Diagnostics - V. I. Borshchevich and S. N. Filimonov 1762 127

Switch-Level Modeling and Testing of MOS Structures - L. A. Zolotorevich 1768 133

Implementation of an Optimal Signature Analyzer - E. L. Stolov 1777 145

Methods and Models for Restoration of Automata Behavior - A. A. Sytnik 1781 149

AUTOMATIC CONTROL SYSTEMS

Synthesis of Modular Block Diagrams for Automatic Control Systems - G. Z. Kaziev 1790 160

TECHNICAL TOOLS IN CONTROL

Mathematical Model of Static Characteristics of Piezoceramic Transducers - A. D. Virtser and Yu. L. Nikolaev 1801 172

OBITUARY

Izrail' Yakovlevich Akushskii 1813 188

Volume 53, Number 12, Part 1, December, 1992

SURVEYS

Asymptotic Method for Analysis and Synthesis of Automatic Control Systems - A. V. Knyazev 1815 3

DETERMINISTIC SYSTEMS

The Problem of Difficulty and Analysis of Heuristics in Discrete Optimization. I - V. A. Bondarenko 1832 20

Suboptimal Control of Dynamic Systems using Differential-Matrix Representations - Yu. G. Bulychev, I. V. Burlai, and S. A. Pogonyshev 1837 25

Inversion of Divergence Conditions of Nonlinear Dynamic System Instability - V. P. Zhukov 1848 36

Input Signal Recovery from Stored Data in Discrete Nonstationary Linear Systems - E. K. Kornoushenko 1852 40

Robust Stability for Periodic Perturbations - Yu. I. Neimark 1863 51

Optimization of Surface Shape Control in Feedback Systems - K. V. Shishakov and V. I. Shmal'gauzen 1866 54

ADAPTIVE SYSTEMS

Nonasymptotic Confidence Limits on the Rate of Convergence of Estimation Algorithms for the Autoregression Coefficient of a Partially Observed Process - A. V. Timofeev 1872 61

Stochastic Quasigradient Method for Quadratic Optimization under Dependent Observations - S. V. Shil'man 1881 70

Volume 53, Number 12, Part 2, December, 1992

EVOLVING SYSTEMS

Guaranteed Contracting and Functional Compensation of Disruptions in Raw Material Deliveries. III. Acceptable and Optimal Plans - V. V. Tokarev 1891 81

CONTROL IN BIOLOGICAL SYSTEMS AND MEDICINE

Passive Variables – A Stabilizing Factor in Dynamic Systems (as illustrated by ecological systems) - V. G. Il'ichev 1897 88

Investigation of Vital Control Processes of an Organism by Modeling Natural Technologies - V. N. Novosel'tsev 1905 96

MODELING OF BEHAVIOR AND INTELLIGENCE

Approximation of the Optimum Function in Procedures of Parametric Optimization - Yu. A. Krysov 1914 106

AUTOMATA

Construction of Well-Formed Petri Nets from Standard Subnets - V. A. Druzhinin and S. A. Yuditskii 1922 115

TECHNICAL DIAGNOSTICS

Diagnostics for Combinational Circuits and Cyclic Codes over Extensions of Finite Fields - Yu. L. Sagalovich 1928 122

Analytical Calculation of an Entropy-Type Testability Measure - D. V. Speranskii 1938 133

Models and Properties of Multialternative Fault-Tolerent Systems - V. S. Kharchenko 1944 140

COMPUTING TECHNIQUES IN AUTOMATIC CONTROL

Forecasting the Execution of Complex Software on Parallel Computer Systems
- P. P. Bocharov and Yu. V. Preidunov 1951 148

NOTES

Nonexistence of Weakly Improving Monotone Shifts in Semiordered Sets with Nontrivial Topological Structure - A. V. Pokrovskii and D. I. Rachinskii 1957 155
